1.0 Introduction

Odoo POS (Point of Sale) provides solutions when it comes to handling payment counters in retail stores where customers pay for their purchased goods. It helps to manage your Restaurants, shops. It has a comprehensible, user-friendly interface & is used in Ipads, tablets, or laptops.

Since Odoo's Software is generally built software for all types of retail business and owners, it is not tailored to a particular customer or retailers. Thus, to make it suitable for custom needs, customized plugin need to be integrated.

1.1 Target Audience

1. Existing Odoo users
2. Odoo Point of Sale Users
3. Business Owners
4. Retail & Wholesale Business Owners & staffs

1.2 Problem Statement

Currently, in any Version of Odoo, there is no feature to transfer the Order from one Shop/Session/Point of sale to another.

1.3 Solution

By adding a feature - >Transferring/Forwarding current order to other point of sale

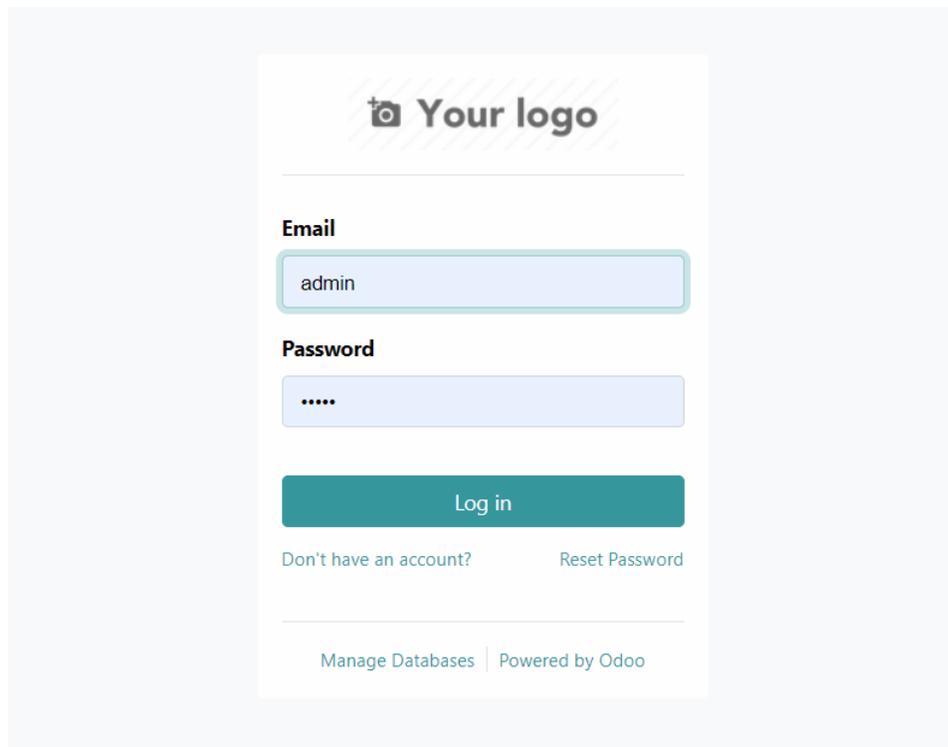

1.4 Features

1. Main Branch & Sub branch Division between Point of sales.
2. Point of sale user can Transfer one Order to other Point of sale.
3. Automatically updates the number of Transfer counts
4. User Can Merge the Transferred order with Current order or Make as a New Order
5. User can see the incoming Orders in seperate screen

1.5 Work Flow Explanation

Login using your user credentials.

Step 1)

The screenshot shows a login interface with a white background and a light gray border. At the top, there is a placeholder for a logo with the text "Your logo" and a camera icon. Below this, there are two input fields: "Email" with the text "admin" and "Password" with four dots. A teal "Log in" button is positioned below the password field. Underneath the button, there are two links: "Don't have an account?" and "Reset Password". At the bottom of the form, there are two links: "Manage Databases" and "Powered by Odoo".

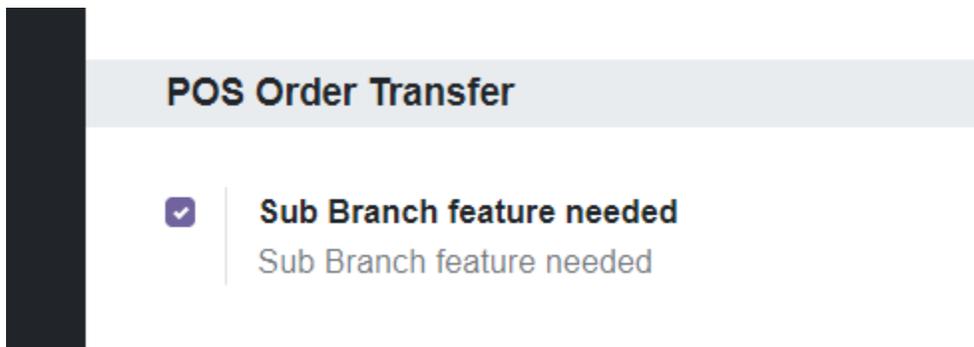

Step 2)

Use this menu path: **Point of sale > Configuration > settings**

There is a Boolean Value for configuring Sub Branch Feature is needed or not.

Boolean check : We can configure Point of sale configuration as Main branch or Sub branch & Order transfer is possible only from Main branch to Sub branch.

Boolean check : We can transfer order from any point of sale conf to any other.

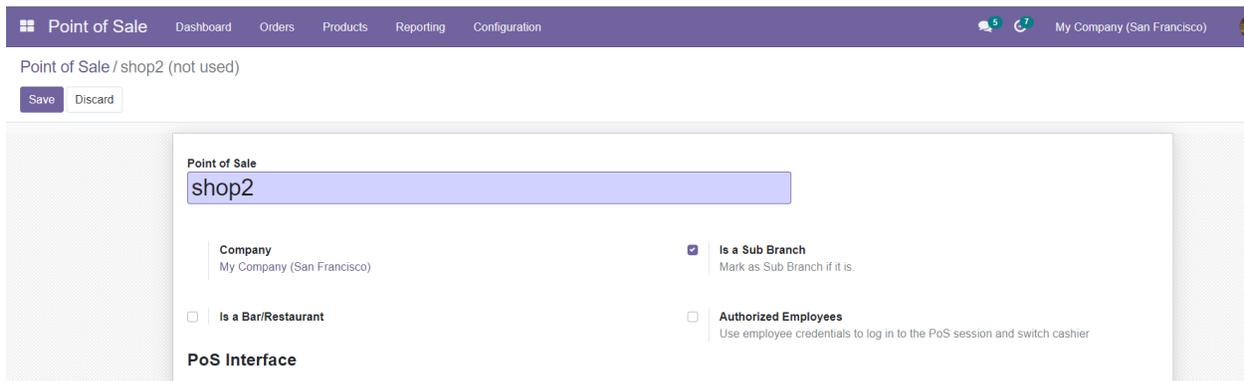

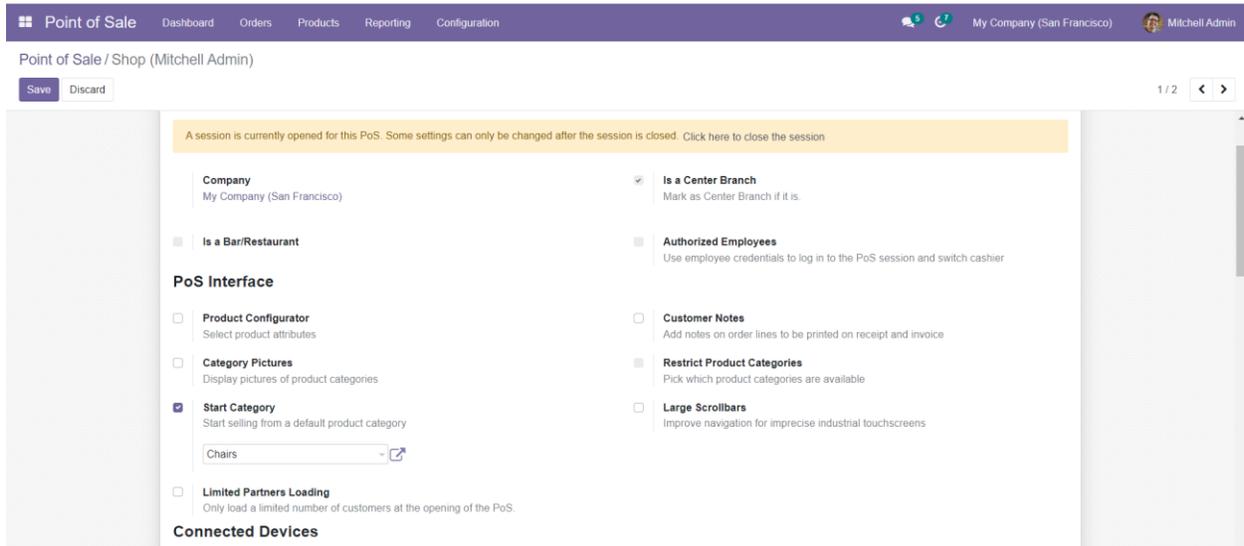

Step 3)

Use this menu path: **Point of sale > Configuration > Point of sale**

Create 2 shops/point of sale and mark one as Center branch & other Sub branch using check box.

If you have checked the configuration mentioned in previous step , then only this feature will be available.

Step 3)

Use this menu path: **Point of sale > Dashboard**

Click on **NEW SESSION** button to start new session and wait to load the Point-of-sale screen

Point of Sale

Shop

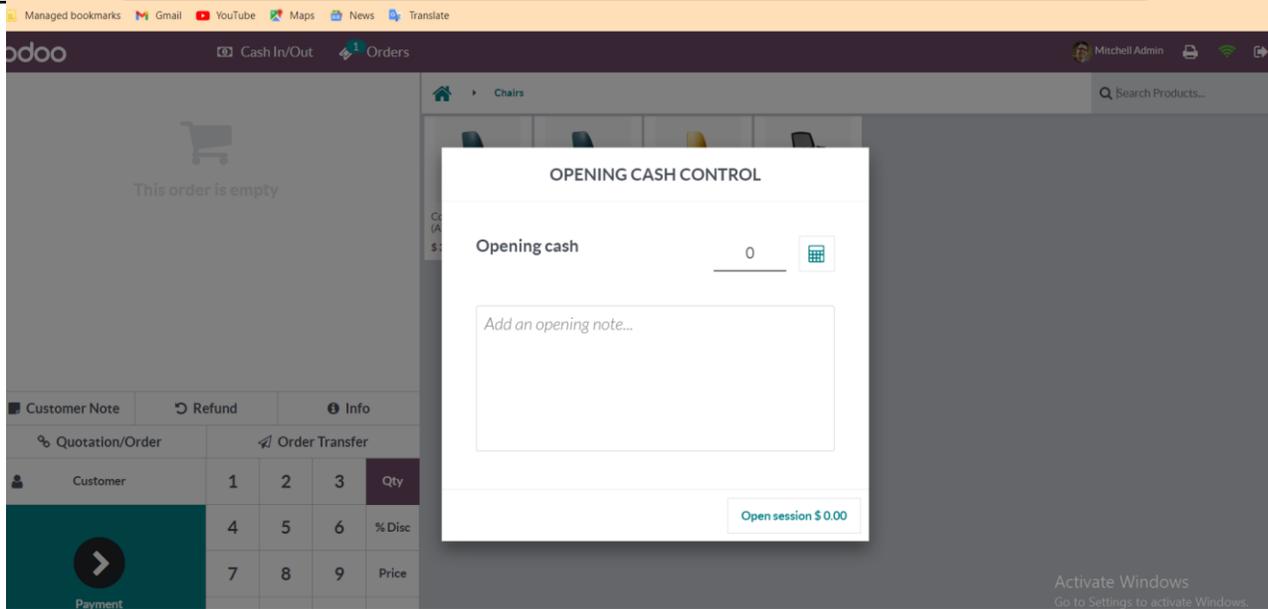

NEW SESSION

Last Closing Date	07/27/2023

Click on **Transfer** Button

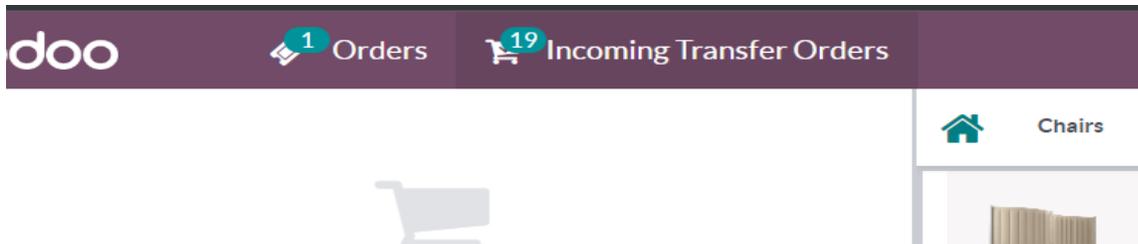

An intimate message will show the details of the order transferred.

Step 6)

Login as sub branch user session

And click on the Incoming Transfer order button

Step 6)

You will a screen like this:

Click on **GO** button

Sequence	Transfer Order Name	Customer Name	Send Date	Send By	Transferred By (Session)	State	
POS/OT/00022	Shop to Shop1	Azure Interior	2023-07-27 07:18:22	Mitchell Admin	POS/00003	draft	<input type="button" value="GO..."/>

Step 6)

Click on the button from the popup as you needed.

Hint is provided

Customer Name	Send Date	Send By	Transferred By
Azure Interior	2023-07-27 07:18:22	Mitchell Admin	POS/00003

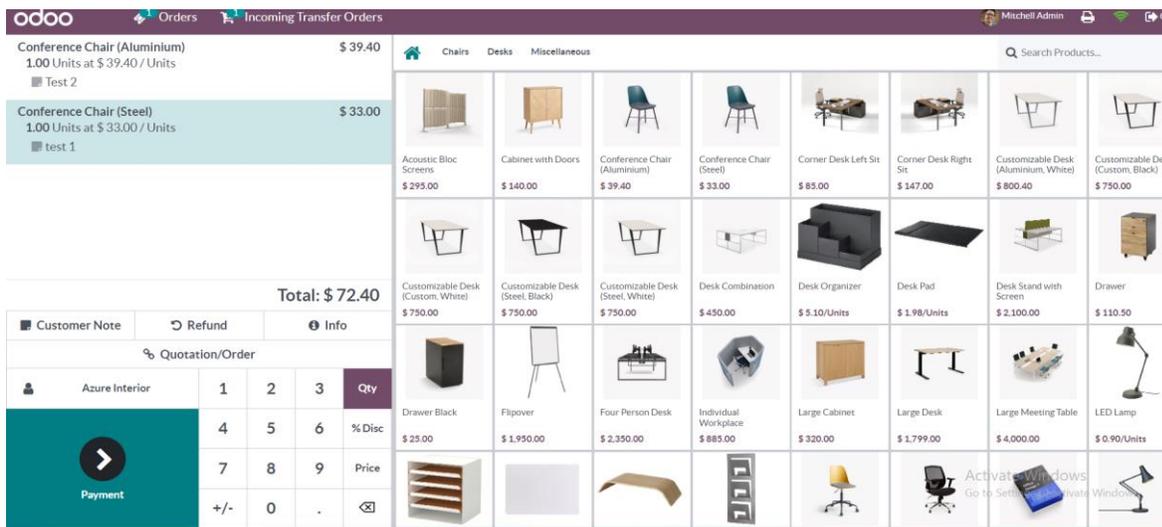

Add to New Order/Add to Current Order ?

Hint:
 New Order : Products will be added to New order.
 Current Order : Products will be added to Current Selected Order.

Cancel Current order New Order

Step 6)

You will get back to the product screen with context you have selected.

The screenshot shows the Odoo POS interface. On the left, there is an order summary for 'Azure Interior' with two items: 'Conference Chair (Aluminium)' and 'Conference Chair (Steel)'. The total amount is \$72.40. Below the summary is a 'Payment' button. The main area displays a grid of furniture products such as 'Acoustic Bloc Screens', 'Cabinets with Doors', 'Conference Chair (Aluminium)', etc., each with a price tag. The interface includes navigation tabs for 'Chairs', 'Desks', and 'Miscellaneous'.

1.6 Release Note

POS Order Transfer is for Odoo version 15.0
