

User Manual

Pits Recycle Bin

1.0 Introduction

This plugin is designed to address a common challenge faced by Odoo users regarding deleted data. It serves as a valuable addition to your Odoo implementation, ensuring that data is never lost without a trace.

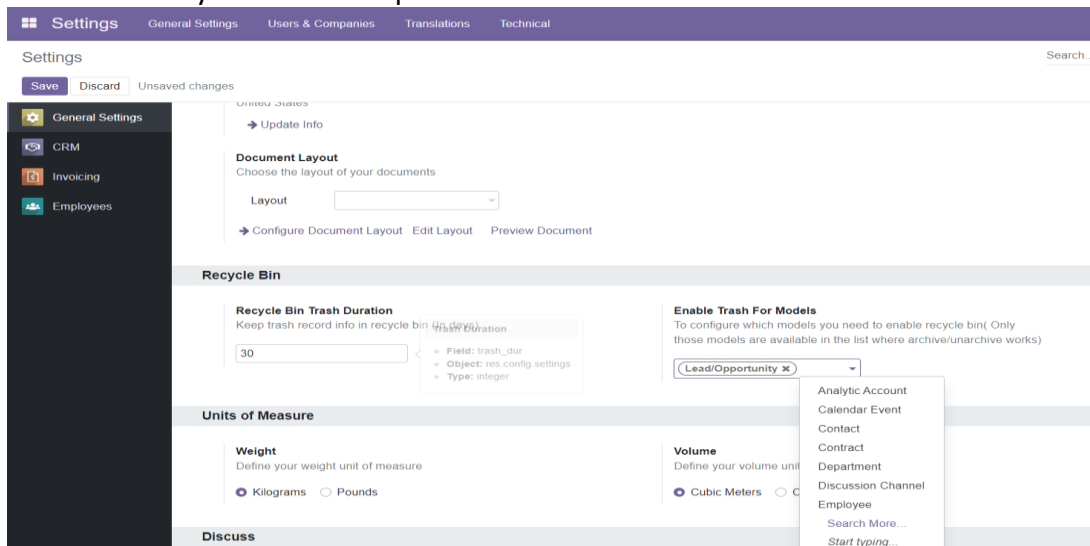

1.1 Features

1. Coupon Generation
2. Referral Tracking
3. Referral Links
4. Commission Calculation
5. Coupon Redemption
6. Email Notifications
7. Customizable Rules

1.2 Configurations

Recycle bin configurations:

This is the configuration of recycle bin button, you can configure in which models form view should the recycle bin button should be shown and archive and unarchive action will be invisible, those models which have archive and unarchive action is there that models will be listed in the “enable trash for models” field in the setting, and we can also set trash duration in which the data in the recycle bin can be permanent deleted in a certain duration.

Recycle Bin (Move To Trash) button in the models

The screenshot shows a CRM interface with a top navigation bar containing 'CRM', 'Sales', 'Reporting', and 'Configuration'. The main content area is titled 'Pipeline / Quote for 600 Chairs' and includes buttons for 'Edit', 'Create', 'Move To Trash', and 'Action'. Below this, there are tabs for 'Won', 'Lost', and 'Enrich'. The main view displays an 'Opportunity' for 'Quote for 600 Chairs' with a value of '\$ 22,500.00 at 20.00 %'. It lists customer details (ErikNFrench@armyspy.com), salesperson (Mitchell Admin), and sales team (Sales). It also shows 'Expected Closing' (10/01/2023), 'Priority' (3 stars), and a 'Product' tag. There are also indicators for '0 Meeting' and '1 Similar Lead'.

List of data in trash / recycle bin

The screenshot shows the 'Recycle Bin' interface. It has a search bar and a table of deleted records. The table has columns for 'Record Name', 'Model', 'Record ID', 'Deleted By', 'Deleted On', 'Restored By', and 'Restored On'. There are two records listed:

| Record Name | Model | Record ID | Deleted By | Deleted On | Restored By | Restored On |
|------------------------------|----------|-----------|----------------|---------------------|-------------|-------------|
| Global Solutions. Furnitures | crm.lead | 16 | Mitchell Admin | 08/02/2023 13:53:48 | | |
| Quote for 600 Chairs | crm.lead | 32 | Mitchell Admin | 08/10/2023 19:27:33 | | |

Each record has a 'Restore' button next to it. The interface also shows 'Filters', 'Group By', and 'Favorites' options, and a page indicator '1-2 / 2'.

When we click on the Restore button it will go back to that model from which we clicked that Trash button
