1. Introduction

The POS Wallee Payment Acquirer Plugin from PIT Solutions offers a seamless and efficient solution for Odoo POS merchants in Europe and Switzerland. By automating the payment process, this plugin eliminates the need for manual payment entry, reducing checkout times and minimizing human errors.

Traditionally, Odoo POS merchants faced the challenge of manually entering payment amounts into their payment terminals. This time-consuming and error-prone process often led to longer checkout times and difficulties in reconciling orders.

The Wallee POS Payment Terminal Plugin solves these problems by:

- **Automating Payment Processing:** Eliminating the need for manual data entry and reducing the risk of human errors.
- **Streamlining the Checkout Process:** Providing a faster and more efficient payment experience for both merchants and customers.
- **Improving Accuracy:** Ensuring that payment amounts are accurately transferred from the Odoo POS to the Wallee payment terminal.
- **Increase Efficiency:** Streamline your checkout process and reduce operational costs.
- **Enhance Customer Satisfaction:** Provide a faster and more convenient payment experience.
- **Improve Accuracy:** Eliminate manual data entry errors and ensure accurate transactions.
- **Stay Compliant:** Benefit from Wallee's adherence to industry security standards.

2. Features

- **Reduced Checkout Time:**
 - **Faster Payments:** Streamline the payment process, reducing wait times for customers.
 - **Improved Customer Satisfaction:** Provide a more efficient and enjoyable shopping experience.
- **Easy Integration:**
 - **Seamless Integration:** Effortlessly integrate the plugin into your Odoo POS system.
 - **Minimal Setup:** Get up and running quickly with minimal configuration.
- **Enhanced Security:**
 - **Secure Transactions:** Benefit from Wallee's robust security measures to protect customer data.
 - **Compliance:** Adhere to industry standards for payment security.
- **Improved Accuracy:**
 - **Eliminate Errors:** Prevent manual data entry mistakes and ensure accurate payment processing.
 - **Streamline Reconciliation:** Simplify the reconciliation process with accurate transaction data.

3. Working

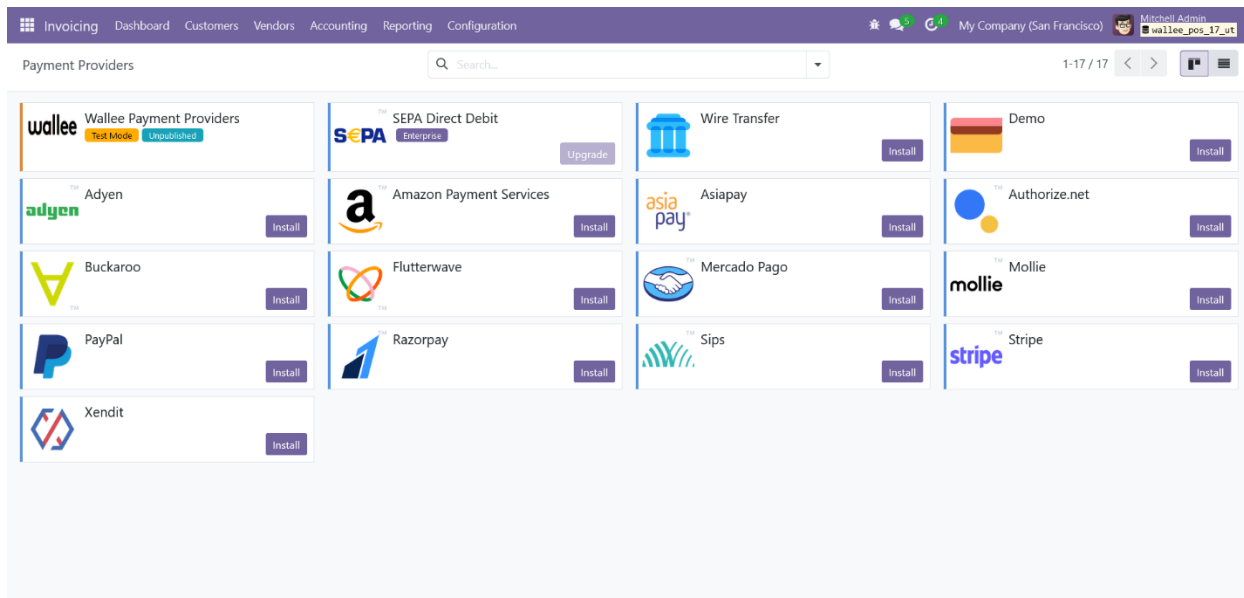

The POS Wallee Payment Acquirer Plugin establishes a connection between Odoo POS users and the Wallee payment gateway via a payment terminal. This integration uses REST APIs to enable seamless communication and data exchange between the plugin and the Wallee payment platform.

Screenshot 1: Payment Providers Listed in Odoo Backend

You can access the payment providers through the following menu option:

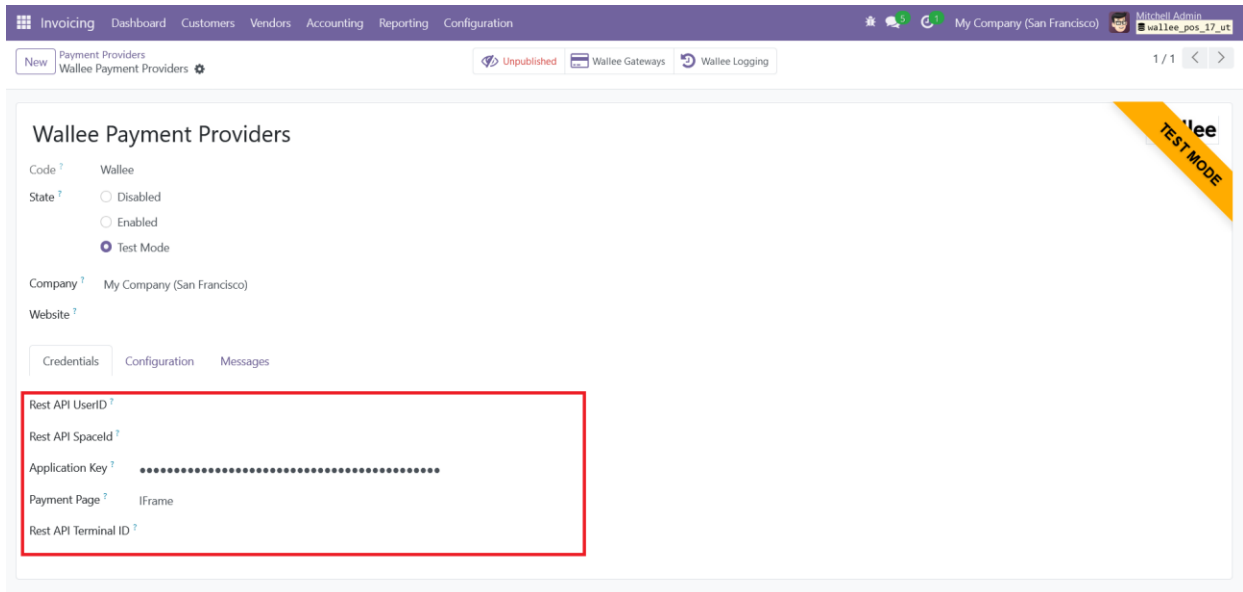

Invoicing > Configuration > Payment Providers

These paths will direct you to the configuration settings for managing payment providers.

Screenshot 2: Odoo Backend Configuration of Wallee Credentials

After selecting the Wallee Payment Provider from the list, navigate to the *Credentials* tab. In this section, you can enter the credentials for your Wallee Payment Provider space.

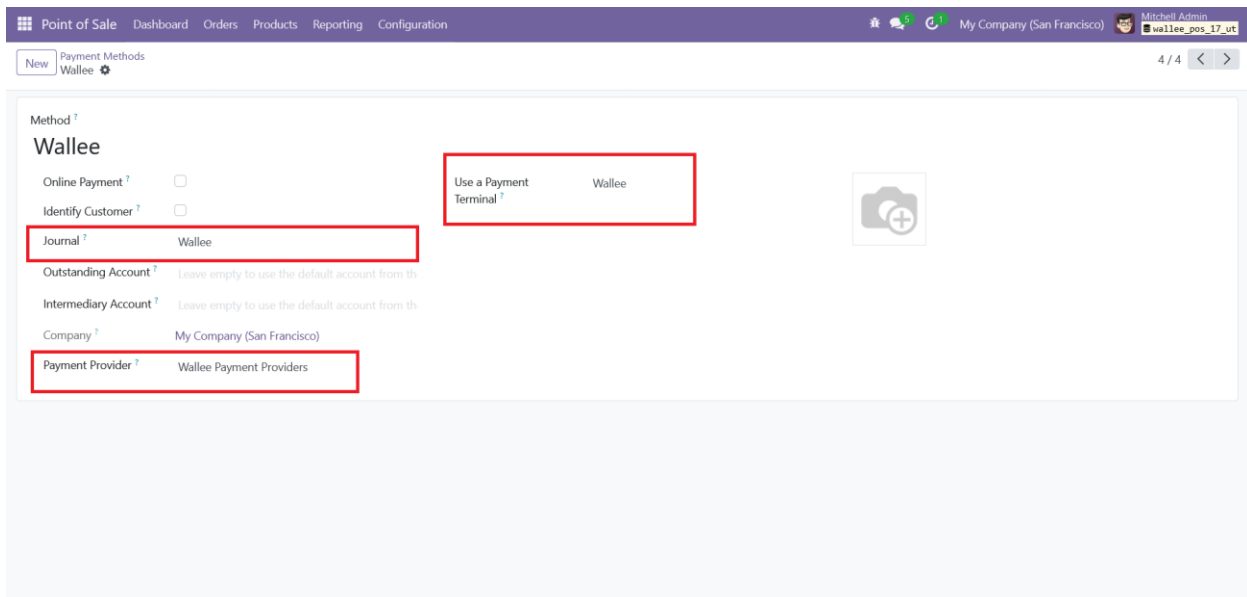

To configure the Wallee Payment Provider in Odoo, you will need the following details from Wallee:

1. **REST API User ID:** The *Application User ID* created on app-wallee.com.
2. **REST API Space ID:** The *Space ID* obtained from app-wallee.com.
3. **Application Key:** The *Application Key* generated on app-wallee.com.
4. **REST API Terminal ID:** The identifier of the terminal to be used for processing transactions.

After entering these details, you can set the status to 'Enabled' for live transactions or 'Test Mode' for testing purposes.

Screenshot 3: Create POS Payment Method for Wallee

To create a POS payment method for Wallee, navigate to *Point of Sale > Configuration > Payment Methods*. From this screen, click on the 'New' button to create a new payment method.

The screenshot shows the 'New Payment Method' configuration screen for Wallee. The form includes the following fields and options:

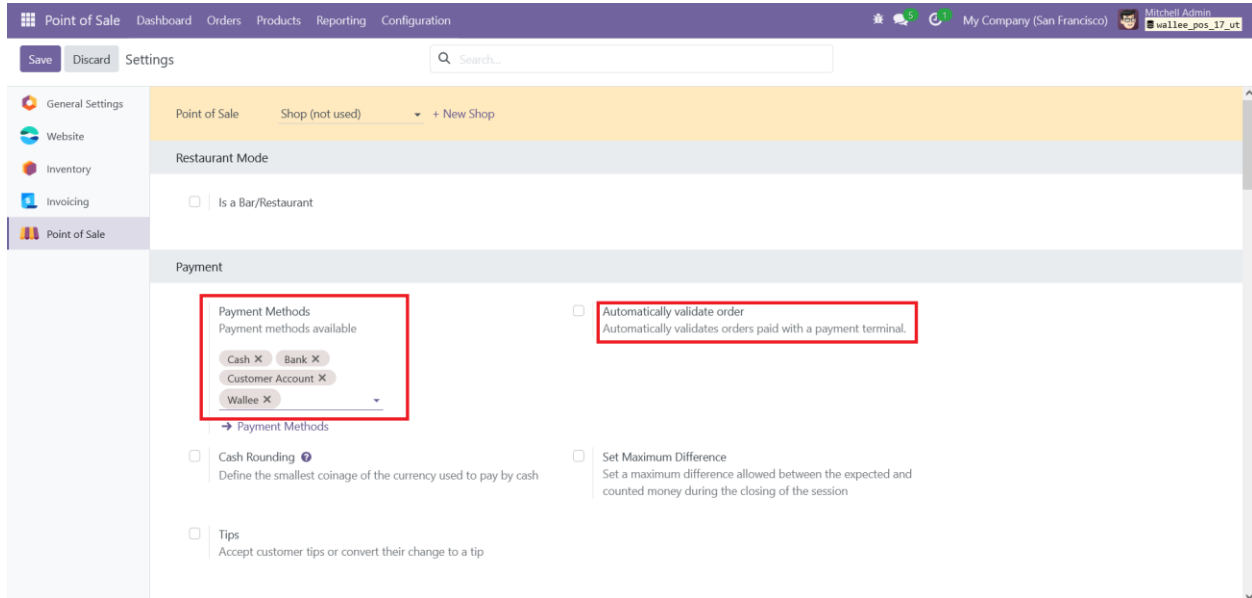

- Method:** Wallee
- Online Payment:**
- Identify Customer:**
- Journal:** Wallee
- Outstanding Account:** Leave empty to use the default account from th
- Intermediary Account:** Leave empty to use the default account from th
- Company:** My Company (San Francisco)
- Payment Provider:** Wallee Payment Providers
- Use a Payment Terminal:** Wallee

Then create a new payment method, naming it "Wallee." Assign a suitable journal for tracking Wallee transactions. Under the "Payment Provider" field, select "Wallee Payment Providers." Finally, choose the "Use a Payment Terminal" option and select "Wallee" as the payment terminal provider.

Screenshot 4: POS Payment Method Configuration for Wallee

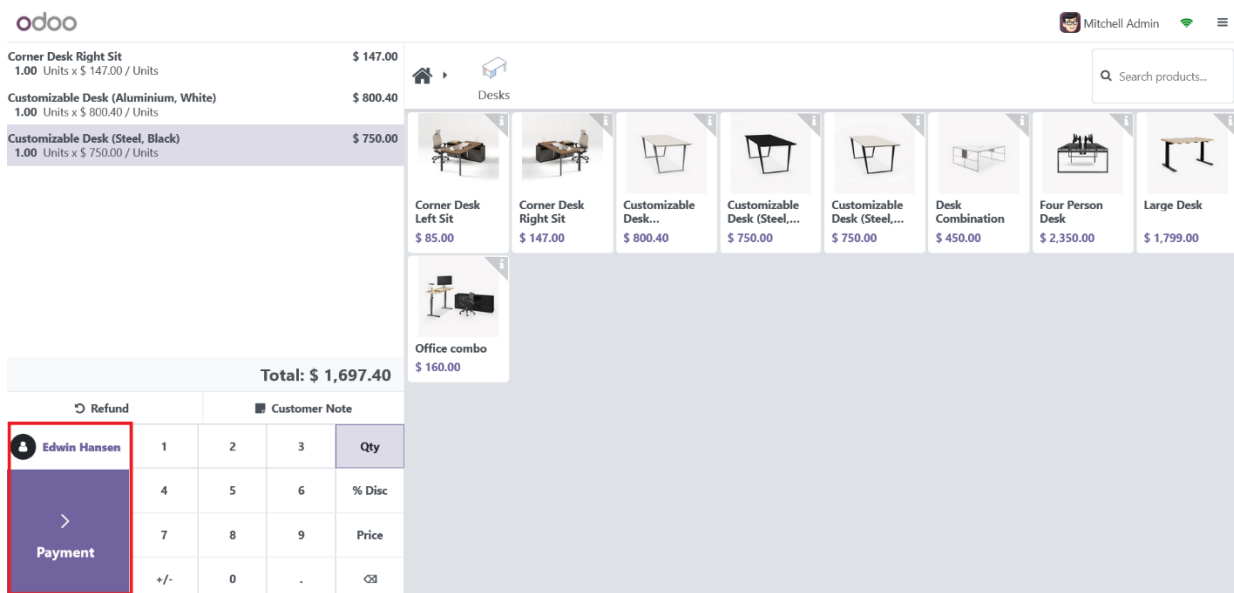

After creating the POS payment method, go to the Point-of-Sale settings, navigate to the Payment section, and add Wallee to the Payment methods available field.

Also, enable the 'Automatically validate order' option if you prefer to automatically validate orders when they are paid using a payment terminal.

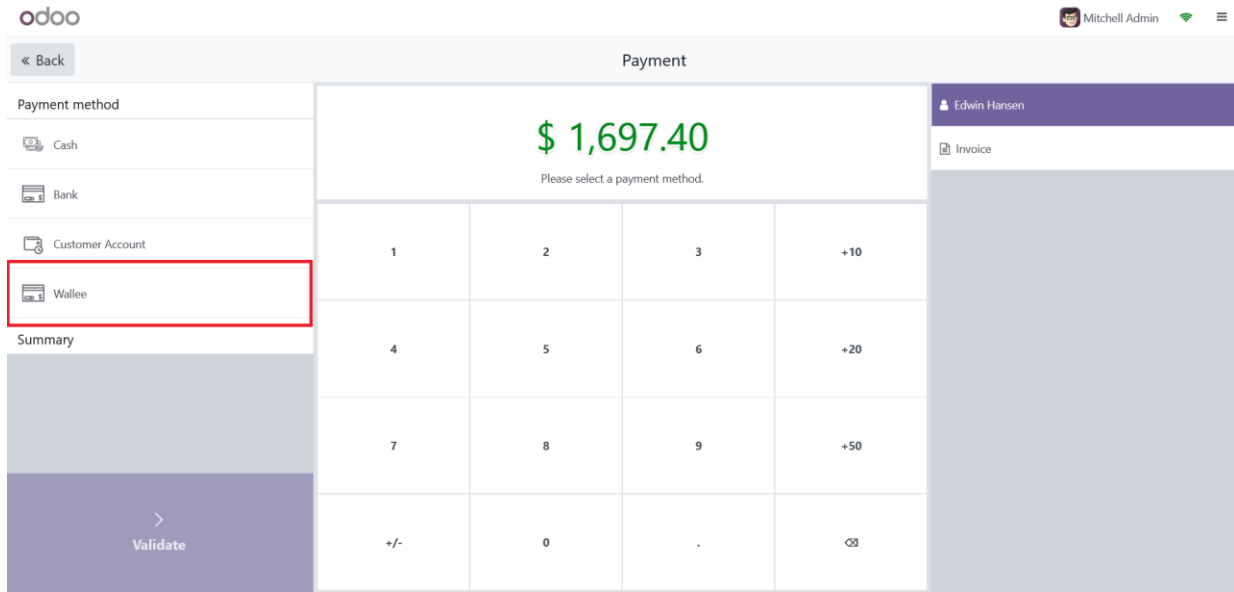

Screenshot 5: Odoo POS Product Screen

After the POS payment method configuration, go to the POS interface and select the desired products for the customer, choose an existing customer or create a new one, and then proceed to the payment screen.

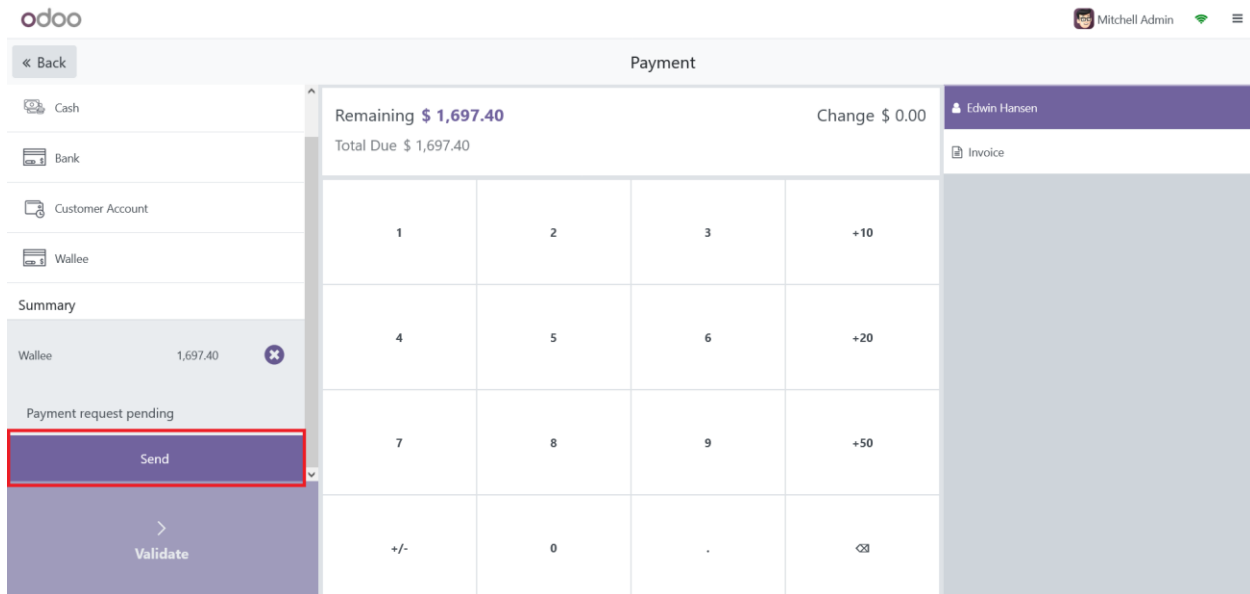

Screenshot 6: Odoo POS Payment Screen

From this screen select the Wallee payment method.

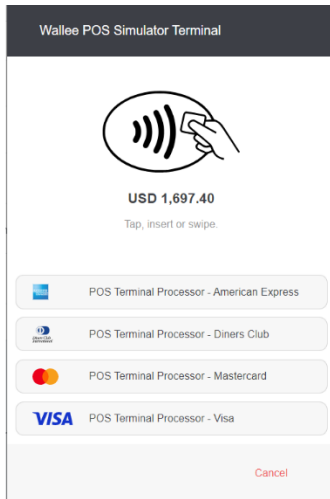

Screenshot 7: Odoo POS Payment Request Screen

After selecting the Wallee payment method, you'll see the payment amount displayed along with a 'Send' button. Click on the 'Send' button to initiate the payment request and send it to the Wallee payment gateway.

Screenshot 8: Wallee POS Payment Terminal

In the Wallee POS payment terminal, the payment amount will be displayed. Choose the card from the terminal and enter your PIN to complete the transaction.

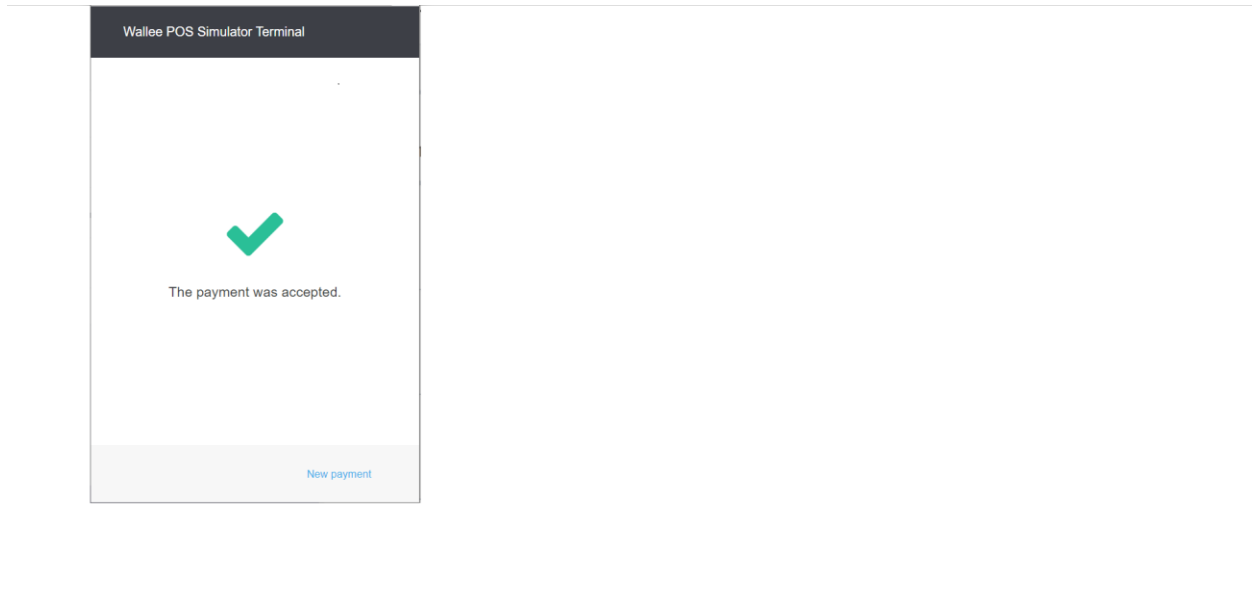

Screenshot 9: Wallee POS Payment Terminal PIN Entering Screen

You can enter your PIN to complete the transaction after selecting the card.

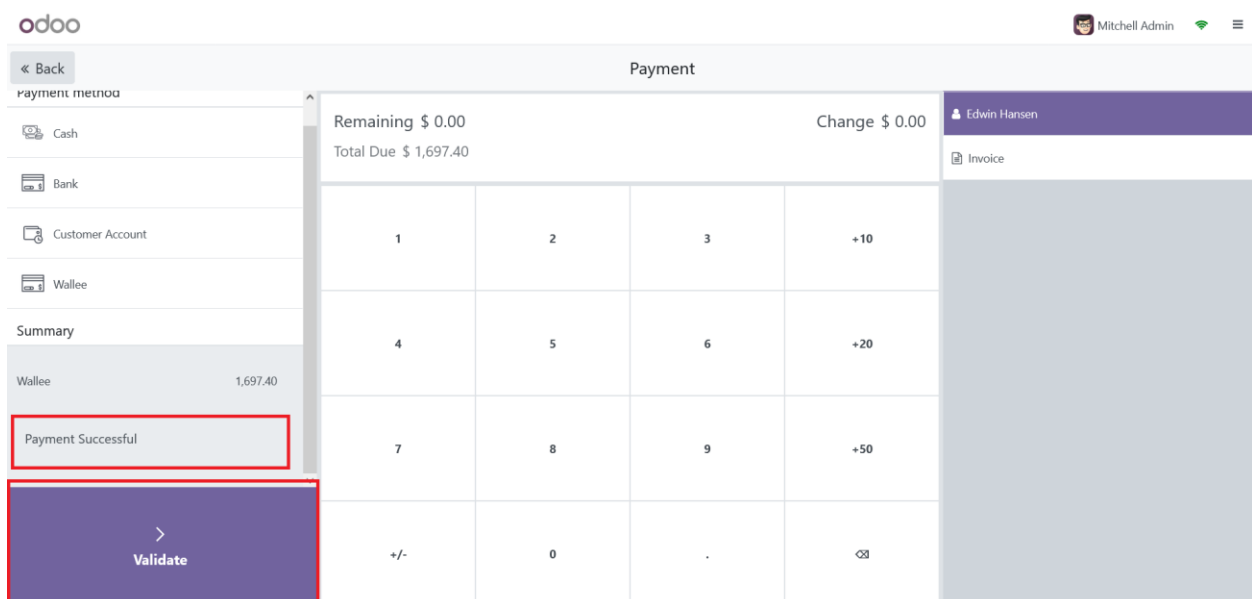

Screenshot 10: Wallee POS Payment Terminal Payment Success

If the transaction is success, then you can see the payment success message in the POS terminal.

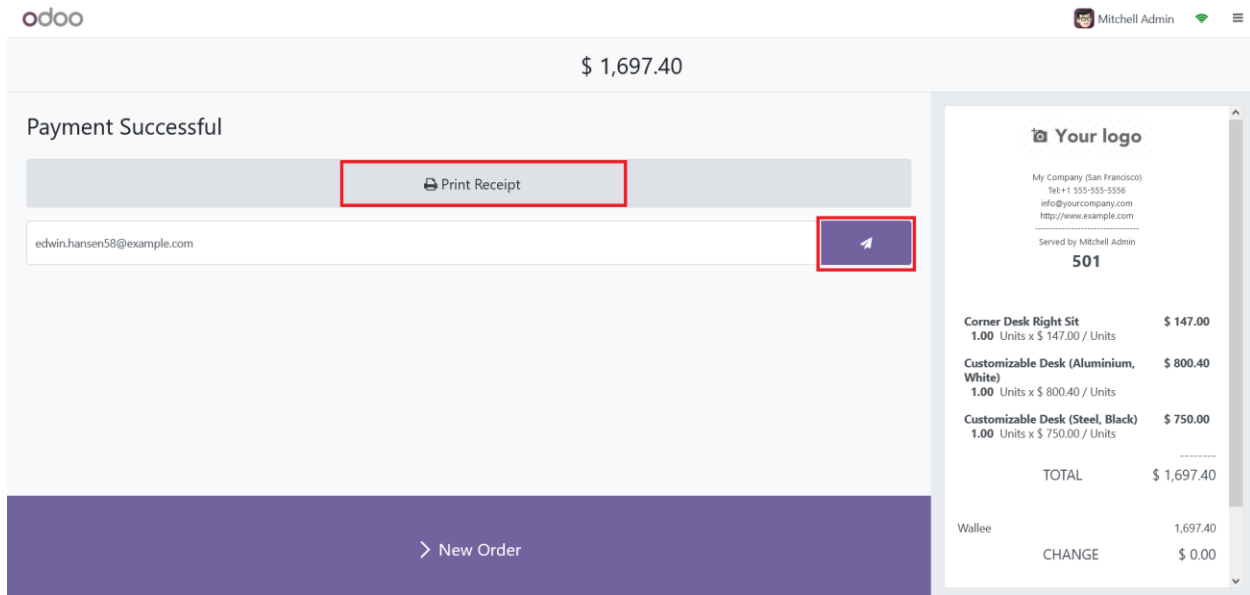

Screenshot 11: Odoo POS Payment Success Status

Upon successful payment, you can see the "Payment Successful" status displayed on the Odoo POS payment screen. If you haven't enabled the 'Automatically validate order' setting, the 'Validate' button will become active, allowing you to manually validate the order.

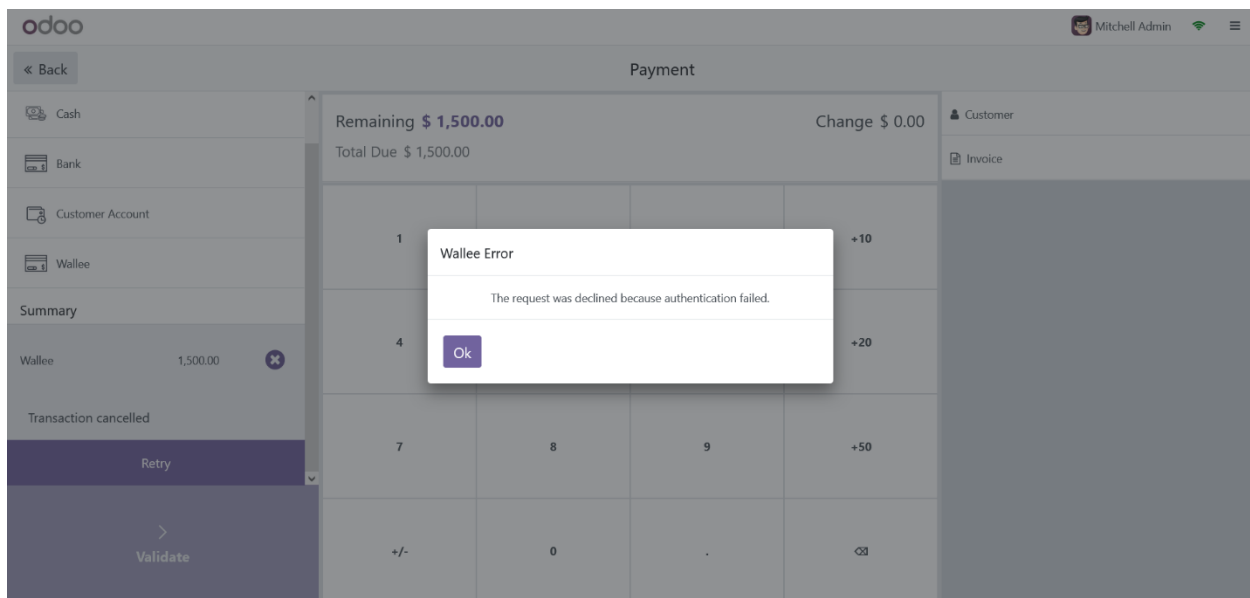

Screenshot 12: Odoo POS Order Validated Screen

Once the order is validated, you can see this screen in Odoo. From here you can send and print the order receipt by clicking the paper plane icon button and the 'Print Receipt' button respectively.

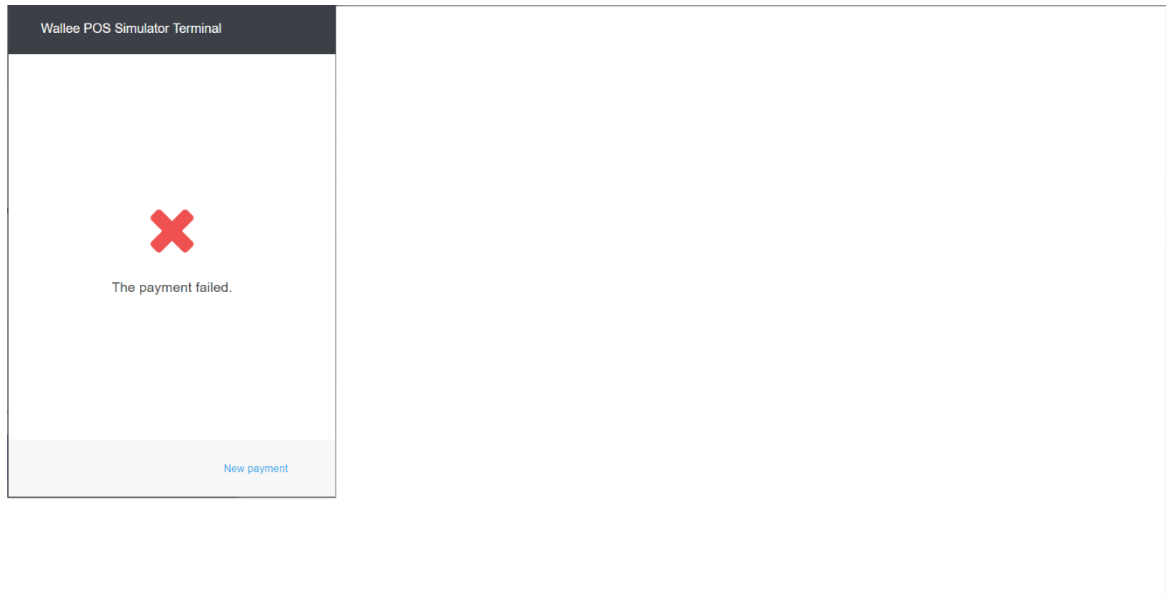

Screenshot 13: Odoo POS Payment Failed Screen

If the authentication is failed from Wallee for any reason, you can see the below error message in Odoo.

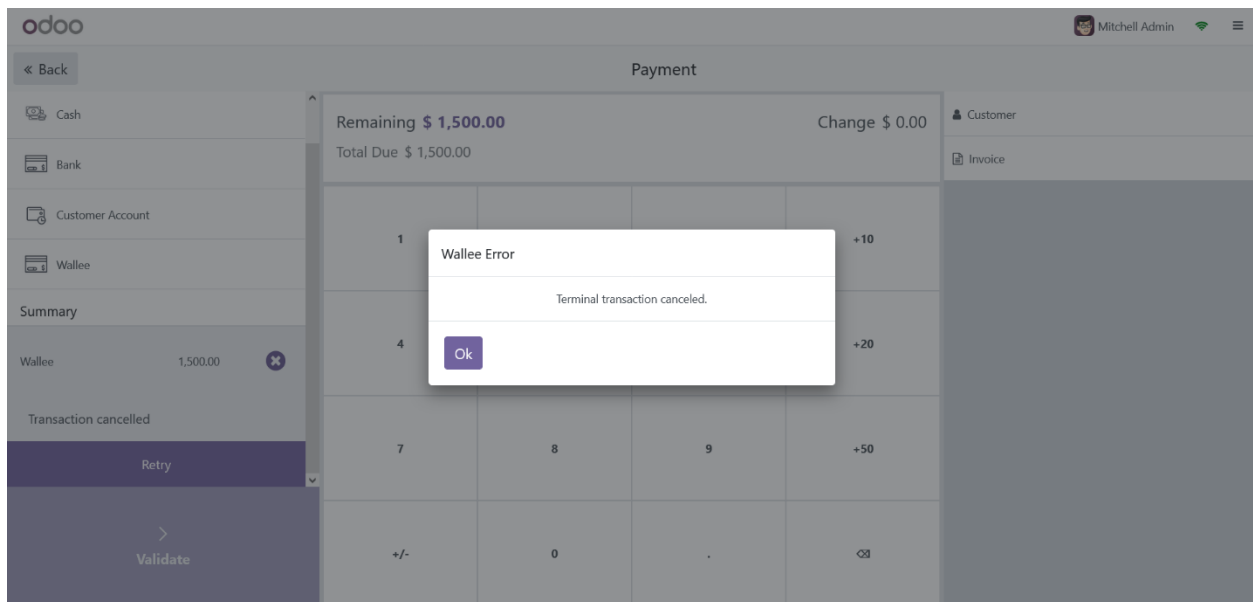

Screenshot 14: Wallee Payment Cancelled Screen

If the transaction is failed, then you can see the below error messages in Wallee and Odoo respectively.

Screenshot 15: Odoo POS Payment Cancelled Screen

If the transaction fails in Odoo and is not cancelled from the Wallee terminal, you need to manually cancel it from the Wallee terminal.

Screenshot 16: Odoo POS Order Screen

After a successful payment, order/transaction details will be recorded in Odoo under the Orders menu and in Wallee under the Transactions menu.

The screenshot shows the Odoo POS interface. The top navigation bar includes 'Point of Sale', 'Dashboard', 'Orders', 'Products', 'Reporting', and 'Configuration'. The user is logged in as 'Mitchell Admin' for 'My Company (San Francisco)'. The current order is for 'Shop/0003'. The order details are as follows:

Order Ref	Shop/0003
Date	09/13/2024 17:33:22
Session	POS/00005
User	Mitchell Admin
Customer	Gemini Furniture, Edwin Hansen
Fiscal Position	

Below the order details, there is a 'Payments' tab selected. It shows a single payment record:

Date	Payment Method	Amount
09/13/2024 17:33:22	Wallee	\$ 1,697.40

Screenshot 17: Payment Transaction in Wallee Back Office

The screenshot shows the Wallee Back Office interface. The page title is 'Payment / Transaction'. The transaction ID is 'POS-00005-001-0001'. The transaction details are as follows:

Amount	USD1,697.40
Currency	US Dollar (USD)
Language	English (United States)
Sales Channel	Physical Terminal
Connector	POS Terminal Processor - Mastercard
Transaction Group	#257187664
Authorization Environment	Test

There is a 'Fulfill' button and a 'Create Token' button. The 'Terminal Receipt' section has a 'Download Receipt' button. The 'Invoice' and 'Delivery Indication' sections have 'Details' links. The right sidebar shows a 'Summary' section with links for 'Line Items', 'Bank Transactions', 'Completions', and 'Refunds'.

4. Technical Requirements / Compatible With:

- Technical Requirements: Odoo Point of Sale, Payment and Invoice Module.
- Compatible with Odoo version 17.0.

5. Changes Log / Release Notes

Version 1.0.0: October 2024

- Initial release
